Education

University of Pittsburgh

Expected May 2027

Bachelor of Science in Computer Science

Bachelor of Science in Digital Narrative & Interactive Design

Pittsburgh, PA

Design Projects

Proggy

In progress

Independent Product Design

- Designed workout-tracking flows for onboarding, reusable templates, and active workouts, with habit tracking as a supporting feature.
- Refined equipment-aware weight entry and exercise-variation settings through iterative interaction-design review.
- Directed AI-assisted high-fidelity screen design, translating product requirements and feedback into visual and interaction refinements.

Attune

In progress

Product Design Capstone

- Designed mobile user flows and an elemental visual identity, specifying activity logging, editing, deletion, and error-recovery interactions.
- Developed a weekly memory-mosaic concept informed by hands-on Headspace analysis and original glass artwork, connecting activity history with reflection.
- Used feedback from 35 concept-survey responses to refine the visual identity and history view and establish a direction for the exploration page.

Building Observability

In progress

Data Analysis Capstone

- Defined information needs for exploring 16.7 million temperature and humidity readings from 40 sensors in an interactive report.
 - Specified comparison views and interactions for examining room conditions across overlapping periods and uneven data coverage.
 - Directed AI-assisted report development, making missing-data limitations and analysis criteria accessible alongside the visualizations.
-

Experience

DataAnnotation

May 2026–Present

Independent Contractor

- Contribute to DataAnnotation's goal of improving AI models.

Zoetis

Parsippany, NJ / Remote

Strategy Realization & Governance Intern

May–Aug. 2025

Technology Strategy & Architecture Intern

May–Aug. 2024

- Developed ServiceNow interfaces and intake forms with validation logic for enterprise application data collection.
 - Created Power BI dashboards and standardized reporting to support application portfolio analysis.
-

Skills

Design: User flows, interaction design, visual identity, concept testing

Tools: Figma, Power BI, Unity, Git
